PART III

PROVISIONS CONCERNING BENEFITS

Article 12

Calculation of benefits where totalization is not required

Where entitlement to a benefit exists under the legislation of one Contracting State without the application of paragraph 1 of Article 13, in case of Austria, the Austrian implementing body or, in case of Brazil, the Brazilian liaison body, shall determine the amount of the benefit exclusively on the basis of the periods of coverage to be taken into account under that legislation.

Article 13

Totalization of periods of coverage

1. If a person has completed periods of coverage under the legislation of both Contracting States, these periods, insofar as they do not overlap, if necessary, shall be added together for the purpose of acquiring entitlement to a benefit, as if they were periods of coverage in the Contracting State in question.
2. The periods of coverage of a person completed in a third State, with which one of the Contracting States has a social security Agreement of the same kind, shall be taken into account for the purpose of acquiring entitlement to a benefit under the legislation of only this Contracting State.
3. If the total duration of the periods of coverage to be taken into account for the determination of the benefit under the legislation of one Contracting State is less than 12 months and due to these periods of coverage entitlement to a benefit does not exist under the legislation referred to in Article 2, no benefit will be provided under the legislation of this Contracting State.

SECTION 1

BENEFITS UNDER THE LEGISLATION OF AUSTRIA

Article 14

Special provision relating to Austria

When a person who has completed periods of coverage under the legislation of both Contracting States, or the survivor of such a person, claims a benefit, the Austrian implementing body shall determine, in accordance with Austrian legislation, whether the claimant is entitled to a benefit by totalizing the periods of coverage, as provided in Article 13, and taking into account the following provisions:

- (a) Where Austrian legislation makes the award of certain benefits conditional upon the completion of periods of coverage in an occupation covered by special schemes or in a specified occupation or employment, only periods of coverage under the legislation of Brazil completed in the same occupation or the same employment shall be taken into account for the award of such benefits.
- (b) Where Austrian legislation provides that the period of payment of a pension shall prolong the reference period during which periods of coverage must be completed until the

relevant date, periods during which a pension has been awarded under the legislation of Brazil shall also prolong the aforesaid reference period.

Article 15 **Calculation of the Austrian benefits**

1. Where entitlement to a benefit exists under Austrian legislation only by totalizing periods under paragraph 1 of Article 13, the Austrian implementing body shall determine the amount of the benefit in accordance with Regulation (EC) No. 883/2004, with periods of coverage in Brazil, to be deemed periods of coverage in another Member State of the European Union.

2. As an exception from paragraph 1 of this Article, child-raising periods shall be taken into account for the determination of the benefit only in accordance with the Austrian legislation.

SECTION 2 **BENEFITS UNDER THE LEGISLATION OF BRAZIL**

Article 16 **Totalization of periods of coverage and calculation of the benefits**

1. If a person is not eligible for a benefit considering only the periods of coverage fulfilled under the Brazilian legislation, the periods of coverage under the Austrian legislation will also be considered for the entitlement to the benefit up to the minimum period necessary to reach eligibility for the benefit. To do so, the Brazilian liaison body shall proceed as follows:

a) calculate the theoretical benefit amount that would be paid as if the totalized periods of coverage, up to the minimum period necessary to reach eligibility for the benefit, had been completed under Brazilian legislation (theoretical amount); and

b) the benefit amount shall be established based on the theoretical amount in proportion between the periods of coverage completed under the Brazilian legislation and the periods of coverage completed under the legislation of both Contracting States, up to the minimum period necessary to reach eligibility for the benefit (pro rata).

2. The theoretical amount of the benefit referred to in sub-paragraph (a) of paragraph 1 of this Article shall not, under any circumstances, be inferior to the minimum amount guaranteed by Brazilian legislation.

PART IV **MISCELLANEOUS PROVISIONS**

3. The competent authorities and the bodies defined in paragraph 1 (e) to (h) of Article 1 shall assist each other in applying this Agreement as if they were applying their own legislation. 4. The competent authorities and the bodies defined in paragraph 1 (e) to (h) of Article 1 may contact each other or involved persons or their legal representatives directly.
5. The competent authorities and the bodies defined in paragraph 1 (e) to (h) of Article 1 may not reject claims or other documents submitted to them by reason only of the fact that they are written in an official language of the other Contracting State.
6. If the Austrian implementing body or the Brazilian liaison body requires an applicant or beneficiary who stays or resides in the territory of the other Contracting State to undergo a medical examination, such examination shall, at the request of that body and at its expense, be arranged or carried out at the place of stay or residence by the Brazilian liaison body or the Austrian implementing body.
7. In case of medical examinations carried out under the legislation of both Contracting States, such examinations shall be arranged or carried out at the place of stay or residence by the Austrian implementing body or the Brazilian liaison body at its expense.
8. The Austrian liaison agency and the Brazilian competent institution could agree on the procedures to carry out medical examinations and for other ways of reimbursement including a waiver of the reimbursement.

1. Any exemption from or reduction of taxes, stamp duty, legal dues or registration fees provided for in the legislation of one Contracting State in respect of certificates or documents which have to be submitted for the application of this legislation shall be extended also to

similar certificates or documents which must be submitted for the application of this Agreement or the legislation of the other Contracting State.

2. All statements, documents and certificates of any kind required to be sent for the purposes of this Agreement shall be exempt from authentication by diplomatic or consular authorities, when they are exchanged directly between the competent authorities and/or the bodies defined in paragraph 1 (e) to (h) of Article 1.

Article 19

Equal status of applications, notices or appeals

1. Any claim, declaration or appeal, which, for the application of this Agreement or of the legislation of a Contracting State, is submitted to the competent authority for the application of Article 11 or the Austrian implementing body or the Brazilian liaison body for all other cases, shall be considered as a claim, declaration or appeal submitted to the corresponding body of the other Contracting State.

2. A claim for benefits made under the legislation of one Contracting State shall also be valid as a claim for a corresponding benefit according to the legislation of the other Contracting State provided that at the time of application information is provided indicating that periods of coverage have been completed under the legislation of the other Contracting State. This shall not apply, however, when the claimant expressly requests that the granting of an old age benefit under the legislation of the other Contracting State should be suspended.

3. Any claim, declaration or appeal, which, under the legislation of one Contracting State, must be submitted within a specified time to the Austrian implementing body or the Brazilian liaison body, may be submitted within the same time to the corresponding body of the other Contracting State.

4. In the cases to which paragraphs 1 to 3 of this Article apply, the competent authority or the Austrian implementing body or the Brazilian liaison body to which the submission is made shall forward the claim, declaration or appeal without delay to the corresponding body of the other Contracting State, indicating the date of receipt of the document.

4. In the event that a Contracting State imposes currency controls or other similar measures that restrict payments, remittance or transfers of funds or financial instruments to persons who are outside that Contracting State, the Contracting State shall, without delay, take appropriate measures to ensure the payment of any amount that must be paid in accordance with this Agreement to persons described in Article 3 who reside in the other Contracting State.

Article 21

Data Protection

(a) For the implementation of this Agreement and the legislation referring thereto, personal data may be communicated to the responsible bodies of the receiving State. The respective receiving bodies shall not use these data for other purposes. Onward transmission of personal data within the territory of the receiving State to other bodies is admissible in conformity with the national law of the receiving State insofar as it serves social security purposes including related court procedures.

The information shall be given without undue delay and - in principle - free of charge. Moreover the person concerned shall have the right to correction of incomplete or inaccurate data and to elimination of unlawfully processed data. Further procedural details relating to the enforcement of these rights are subject to national law.

(f) In the event of breach of rights related to data protection, the affected persons shall be entitled to legal remedy, including in a court of law, in accordance with the respective national law of the Contracting States.

(g) Personal data communicated shall be eliminated

- if found to be inaccurate, or unlawfully obtained or communicated, or

- if lawfully communicated data have to be eliminated at a later date pursuant to the national law of the communicating State, or

- if data are no longer needed for the fulfilment of the task and if there is no reason to suppose that the elimination could endanger a person's interests deserving protection in the field of social security.

(h) Both the communicating body and the receiving body shall be obliged to register purpose, subject and date of any communication of personal data.

(i) Both the communicating body and the receiving body shall be obliged to effectively protect the received personal data against accidental or unauthorized destruction, accidental loss, unauthorized access, unauthorized or accidental modification and unauthorized disclosure.
